Projects

Ecotourism   Live Demo Link   Github Repo Link

HTML   CSS   Javascript   React   Chakra UI

- Implemented a travel website called Ecotourism to showcase eco-friendly locations and allow users to book tickets.
- Used HTML, CSS, JavaScript, React, and Chakra UI to develop a responsive and user-friendly application.
- Incorporated dynamic routing for easy navigation and implemented user authentication for secure access.
- Took the lead in developing the product details page and ensured seamless integration of all project components.
- Managed the deployment of both the backend and frontend to ensure a cohesive application.

Carver   Live Demo Link   Github Repo Link

HTML   CSS   Javascript

- Redesigned the skateboard selling website Carver using HTML, CSS, and JavaScript.
- Implemented responsive design for a seamless user experience and added sorting and filtering options for easy product navigation.
- Incorporated user authorization features to enhance security and protect user accounts.
- Developed and deployed the backend data and ensured overall website responsiveness.

Nykka   Live Demo Link   Github Repo Link

HTML   CSS   Javascript

- Created a clone of the Fashion e-commerce website Nykaa using HTML, CSS, and JavaScript.
- Developed the cart page to enable easy shopping for users.
- Ensured a responsive design for a seamless user experience across devices.
- Managed user order details and manipulated items in the cart to enhance the shopping experience.

Experience

StarVLSI │ Digital Marketing Executive

April 2022-November 2022

- Orchestrated website maintenance and creation using popular CMS platforms such as WordPress and Wix, ensuring a seamless and user-friendly online presence.
- Generated engaging and informative blog content, bolstering the company's thought leadership and SEO ranking within the industry.
- Spearheaded strategic social media posting campaigns, amplifying brand visibility and engagement across various platforms, including Facebook, Instagram and LinkedIn.
